Hello Nathan,

Please find attached the following completed questionnaires:

- Questionnaire 1 (Software developer checklist) version 1.0 - DIY Accounting Limited - v1.0.0.docx
- Questionnaire 2 (WCAG 2.1 AA) - DIY Accounting Limited - v1.0.0.xlsx

These were quite useful in locating a couple of areas for improvement, specifically accessibility testing standards were tightened to WCAG AA 2.2, and the period key is now validated against the open obligations.

We have retained the more detailed reports used to complete these questionnaires, please let me know if you require any further information.

Thanks,

Antony.
